

NEW

WARRIOR™ Tech

REACTIVE WELDING HELMET

Suitable for use in all welding applications

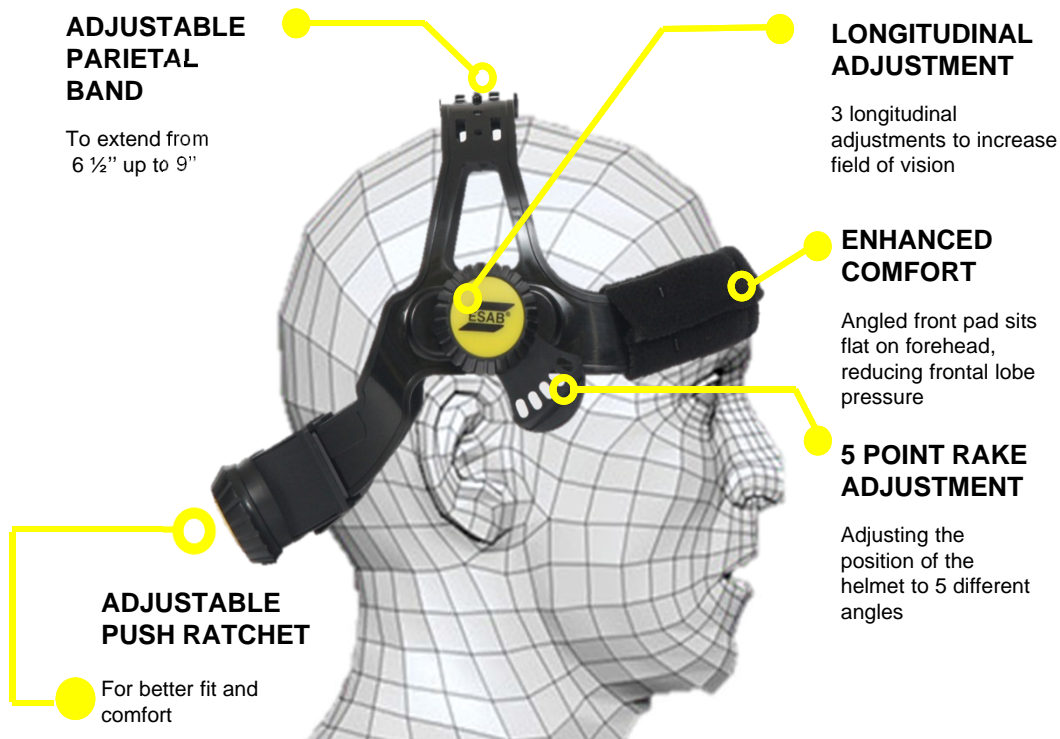

WARRIOR™ Tech

The **WARRIOR™ Tech** helmet - designed to meet the needs of all welders providing a high tech, lightweight helmet protecting from dangerous UV/IR radiation as well as both heat and spatter.

The **WARRIOR™ Tech**'s 9-13 shade auto darkening filter (ADF) lens offers the user optimal viewing clarity and an excellent optical quality whilst the shell gives the safety of a "B" grade impact rating.

Benefits to the Weld Warrior

New ergonomically designed head band – for greater comfort

ENHANCED LENS PERFORMANCE

Four Arc sensors for higher response and wider sensory coverage
Optimal performance for most fabrication and out-of-position welding

LARGE VIEWING AREA

98mm x 48mm (3.85" x 1.88") wider field of vision increasing spatial awareness
1/2/1/2 – Optical Class
Adjustable 9 – 13 shade level

SENSITIVITY CONTROL

An adaptable feature useful when welding low amperages (TIG) for better reaction to darker Arc light

DELAY CONTROL

Enabling the welder to set how long the lens stays dark after the welding arc stops.
Short delay helps get the job done faster during tack welding, whilst longer delay is useful for high amperage welding

WARRIOR™ Tech Ordering Information

Available in traditional yellow and black

WARRIOR™ Tech

The **WARRIOR™ Tech** 9-13 features an external shade adjustment between DIN 9 and DIN 13. The delay and sensitivity can be adjusted from the inside.

WARRIOR™ Tech Black	0700 000 400
WARRIOR™ Tech Yellow	0700 000 401

Available options/optional extras

Available with Diopter configurations.

+ 1 - Warrior Tech	0700 000 084
+ 1.5 - Warrior Tech	0700 000 085
+ 2 - Warrior Tech	0700 000 086
+ 2.5 - Warrior Tech	0700 000 087
